# Comparing Prices

vs.

A bag of 12 Honey Crisp Apples = \$9.56

1 Honey Crisp Apple = \$2.39

Calculate the unit price of each Honey Crisp apple to determine the better deal.

\_\_\_\_\_ ÷ 12 = \_\_\_\_\_ an apple      \$2.39 x \_\_\_\_\_ = \_\_\_\_\_ a bag

What is the better deal? Buying a bag of apples or buying 12 individual apples?

Answer:

\_\_\_\_\_

**Try It:** Determine the better deal. Circle your answer.

One basketball for \$11.00      or      6 basketballs for \$60.00

One slice of pizza for \$2.00      or      One 8-slice pizza for 6.00

20 comic books for \$80.00      or      12 comic books for \$54.00

12 pencils for \$4.00      or      72-pack of pencils for \$22.00
